

Do you or your child use a walker or wheelchair and have a diagnoses of cerebral palsy?

Participants in this study will:

- Take part in a 2-hour focus group
- Share your experiences with mobility devices.
- Discuss benefits and drawbacks of current devices, views on how the equipment was chosen, and experiences with community participation.
- Locations are: Shirley Ryan Ability Lab and Center for Independence in Countryside

Participants will be compensated for their assessment time.

If interested, please contact Jessica Presperin Pedersen at 312-238-2964 or jpedersen@sralab.org.

Inclusion Criteria:

- **Age 0-80**
- **Diagnosis of cerebral palsy**
- **Use a wheelchair or walker**
- **Ability to attend 2-hour focus group session**
